2024

CONTINUING EDUCATION

9200 Montgomery Road, Suite 21A • Cincinnati, Ohio 45242-7797

Telephone: 513-984-3443 • Fax: 513-984-3047

Email: cds@cincinnatiadental.org • Website: www.cincinnatiadental.org

Dear Cincinnati Dental Society Members:

It is our pleasure to present the 2024 Live CE lecture series. Our Program Committee spent time scouting in-demand speakers at national dental meetings, such as the Chicago Midwinter and the Atlanta Hinman, to bring you the most engaging and up to date lecturers!

Our diverse and most importantly quality speaker line-up will provide you and your team members with information you can use immediately in your office the following Monday morning. While conversing with many of these lecturers, one thing that they noted, and we hope you do too as well, is that few local dental societies still have this number of high quality in-person education opportunities. We feel incredibly lucky we can continue to do this, and none of this would be possible without our members' support!

This year, our four programs span from the traditional practice management and implant restorations to the more modern 3D printing applications and the Integrative Dental Medicine concept. These fantastic lectures will give you a well-rounded CE experience from sought-after speakers, all without spending a minute on a plane or in a hotel room!

On top of the educational experience, the wonderful venue offered by Delta Hotels by Marriott supplies delicious food in a comfortable setting. The 2024 CE lecture series is a great opportunity to "sharpen the saw", get away from the isolation of the dental operator, and reconnect and socialize with colleagues!

Sincerely,

Matthew A. Corcoran, D.D.S. – 2024 Program Co-Chair

John V. Unger, D.D.S. – 2024 Program Co-Chair and the entire CDS Program Committee

CE Program Committee Members: (Drs.) Ken Brandt, Matt Corcoran, Larry Hagen, Dennis Murphy, Bryan Osterday (CDS Vice President), Fred Peck, Nathan Powers, and John Unger.

2024 Postgraduate Course Schedule

6 Hours of CE Credits Each

March 1, 2024
Friday

Speaker: Gerard Kugel, DMD, MS, PhD
“The Future of Dentistry-It’s 3D Printing!”
and “Adhesive Dentistry & Bioactive
Materials” - Delta Hotels by Marriott

April 12, 2024
Friday

Speaker: DeWitt Wilkerson, DMD
“Integrative Dental Medicine: The Next
Great Frontier” - Delta Hotels by Marriott

October 11, 2024
Friday

Speaker: Tanya Brown, DMD
“Practice Management from A to Z - Find
the Hidden Potential in Your Team and
Practice” - Delta Hotels by Marriott

November 15, 2024
Friday

Speaker: Jay Smith, DOS
“Prosthodontic ‘Pearls’ for Enhanced
Efficiency in Implant Dentistry” and
“Enhanced Aesthetics with Crowns and
Veneers” - Delta Hotels by Marriott

Continuing Education Information and Credits

The continuing education courses are an official activity of the Cincinnati Dental Society. Speaker selection is based on expertise and presentation quality. Speaker participation neither implies nor reflects CDS endorsement. All courses are offered as information only and not as financial, accounting, legal, or other professional advice. Persons attending courses or reviewing handout materials need to consult their own professional advisors for advice. The views and opinions expressed by speakers do not necessarily reflect the policies or positions of the Cincinnati Dental Society. The CDS reserves the right to cancel, reschedule or substitute presentations as deemed appropriate.

Certification of attendance at the courses will be provided only for those who have registered and attended the courses. Registration deadline is the Friday preceding each course. See individual course listings for the number of CE credits.

The Cincinnati Dental Society is an ADA CERP recognized provider approved by the Ohio Dental Association. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. The Cincinnati Dental Society designates this activity for CE hours equal to the number of course hours for that class. Concerns or complaints about a CE provider may be directed to the provider or to ADA CERP at www.ada.org/cerp.

General Information

LOCATIONS

The full-day programs will be held at the Delta Hotels by Marriott, 11400 Chester Road, Cincinnati, OH 45246, 513-771-2080.

- * In the event of inclement weather programs will only be cancelled if there is a level 3 emergency. Notice of cancellation will be posted on the website and messages will be left on the Society's Executive Office voice mail and at Delta Hotels by Marriott.

TIME SCHEDULE

8:00 a.m.	Registration and Continental Breakfast
8:30 a.m.	Program with Morning Break
11:45 to 12:30 p.m.	Lunch
12:30 pm	Program Resumes, No Afternoon Break
3:15 pm	Program Ends

REGISTRATION AND LUNCHEON GUIDELINES

FULL SERIES REGISTRANTS:

If registered for the complete series, lunch will be provided for **ONLY** those who have checked "Yes" on the registration form or who have contacted the Executive Office for a reservation by the Friday preceding the course. **No lunch will be provided for attendees who have not contacted the Executive Office by the Friday preceding each course and no exceptions will be made.** If a reservation is made and not honored or cancelled by the Friday preceding each course, an additional charge of **\$35** will apply. Your cooperation will enable us to make the necessary arrangements.

INDIVIDUAL COURSE REGISTRANTS:

If registered for individual courses (not the series), the necessary arrangements including a reservation for lunch, will be made automatically and you do not need to contact the Executive Office, unless you do not intend to attend the luncheon.

GUIDELINES FOR RECEIVING CONTINUING EDUCATION CREDITS

Individuals will earn six (6) credit hours if he or she arrives before the program begins and stays until the end of the program. Individuals will earn three (3) credit hours if he or she arrives after the morning break, leaves at lunch, or arrives after lunch.

HANDOUT POLICY

Handouts will be available for downloading on the website prior to each course. **Hard copies will not be available on the day of the course.**

CANCELLATION POLICY

For a cancellation refund, written requests must be received no later than three weeks prior to the course. Refunds will be processed two to three weeks after the date of the course and will be made via the same method of payment, when possible. The CDS reserves the right to cancel or reschedule any course due to unforeseen circumstances. Registrants will be notified.

VIDEO RECORDING

Video recording is not permitted by members of the audience unless written permission is granted by the sponsor.

Friday, March 1, 2024
at the Delta Hotels by Marriott

“The Future of Dentistry-It’s 3D Printing!” and
“Adhesive Dentistry & Bioactive Materials”
– 6 CE Hours

Gerard Kugel, DMD, MS, PhD

(Dental Hygienists, Dental Assistants & Administrative Personnel of registered dentists for this course are invited to attend if space permits. See tuition charge on registration form.)

First Course Description – The Future of Dentistry-It’s 3D Printing

Do you understand 3-D printing? Are you considering going completely digital? Are you making your own surgical guides or orthodontic appliances? Have you considered printing your own PPE? This course will introduce what you need to know about 3-D printing! We’ll cover the basics to advanced-level methods of using intraoral and optical scanning techniques. 3-D printing techniques and methods for fabricating surgical guides will be discussed. Emphasis will be placed on relatively inexpensive desktop grade 3-D printers and fabricating dental models for pennies! This course will present a practical approach to incorporating 3D Printing into your everyday dental practice.

Learning Objectives:

1. Understand 3D printing as it relates to dentistry, its advantages, and limitations.
2. Learn which materials work best in 3D printing and for which applications.
3. Develop realistic expectations for 3D printing; understand printing models for C&B, temporaries and more.

Second Course Description – Adhesive Dentistry & Bioactive Materials

There is a plethora of bonding agents and cements on the market. This program reviews new materials and techniques in an effort to improve our treatment outcomes from prevention to restoration highlighting bioactive/biomimetic materials. We will review techniques and tools to enhance the long-term maintenance of your patients’ dentition and help prevent the need for future restoration. Questions are arising as to the longevity and appropriateness of our current resin material systems and the new generation of bonding agents. Researchers have begun to develop advanced acid-based restorative alternatives to help with the limitations we see with our

restorative and luting needs. We will discuss these new materials and how they can help us produce more long-lasting bioactive and protective restorations as well as improve our bonding results.

Topics covered:

- Advantages & disadvantages of the different generations of bonding.
- Self-etch and enamel bonds.
- Avoiding post-operative sensitivity.
- Research data.
- 6th and 7th generation bonding are they really better.
- Understand why resin bonded restorations and bonding systems are being questioned.
- Learn what bioactive materials are and how they work.

Learning Objectives:

1. Learn to improve bonding techniques.
2. Learn to avoid post-operative problems.
3. Review recent bonding data.
4. Learn what bioactive materials are.

About the Speaker

Gerard Kugel, DMD, MS, PhD, Associate Dean for Research and Professor of Comprehensive Care at Tufts University School of Dental Medicine. With an expertise in Clinical Research and Esthetic Dentistry, he is a reviewer for *The New England Journal of Medicine*, *JADA*, *The Journal of Esthetic and Restorative Dentistry*, and the *Clinicians Report*. He is on the Editorial Board of *The Journal of Cosmetic Dentistry*, *Compendium*, and *Inside Dentistry*, where his is Editor Emeritus. He is a Fellow in the Academy of General Dentistry and the Academy of Dental Materials. Dr. Kugel has his PhD in Dental Materials. He earned his Executive Certificate in Management and Leadership from the Sloan School of Management at MIT.

Dr. Kugel has published over 150 articles and over 300 abstracts in the field of restorative materials and techniques. He has given over 400 lectures both nationally and internationally. Dr. Kugel is part of a group practice, the Trinity Dental in Boston, MA.

**40%
OFF**

**The Cincinnati Dental Society
Announces the**

**New Grad Discount Program
for Continuing Education 2024 Programs**

Cincinnati Dental Society members who graduated from dental school in 2021, 2022 and 2023 will now enjoy a **40%** discount on the full-series, two-day or one-day continuing education programs in 2024!

The full series registration fee is \$1,160

New grads will pay only \$696.00 for four (4) full day continuing education programs.

The two-day registration fee is \$600

New grads will pay only \$360

The one-day registration fee is \$325

New grads will pay only \$195 per course

To take advantage of this special offer, please complete the section below and return with a completed “2024 Registration Form” (located inside the “2024 Continuing Education” booklet) to the

Cincinnati Dental Society’s Executive Office at:

9200 Montgomery Rd., #21-A, Cincinnati, OH 45242.

“Integrative Dental Medicine: The Next Great Frontier”

– 6 CE Credits

DeWitt “Witt” Wilkerson, DMD

(Dental Hygienists, Dental Assistants & Administrative Personnel of registered dentists for this course are invited to attend if space permits. See tuition charge on registration form.)

Course Description

We face a severe health crisis, which is a much larger pandemic than Covid19! The western lifestyle of poor diet, lack of exercise, excessive weight, high blood pressure, diabetes, smoking, stress, periodontal & periapical oral disease, breathing disordered sleep and GERD, are examples of the co-morbidities which put every one of us at risk in a viral world! Dentistry is the medical specialty of oral medicine. Oral health is directly related to complete health: the oral-systemic connection.

We must ask: “How we can stand on the frontlines fighting the health crisis that is destroying our nation?”

The answer is through developing a new model that integrates Dentistry & Medicine = Integrative Dental Medicine (IDM). This model must create both healthier patients and practices(\$). Dr. Wilkerson will discuss his 10 years of research and clinical implementation, the subject of his bestselling book entitled, “The Shift, the Dramatic Movement Toward Health Centered Dentistry”.

Learning Objectives:

1. Introduce the 3 pillars of IDM.
2. Introduce the IDM Checklist
3. Introduce a business model for IDM.

Questions:

1. T or F There is a link between systemic inflammation, TMD & sleep disorders. (true)
2. T or F The #1 cause of systemic inflammation is smoking. (false)
3. T or F Breathing disordered sleep can be a cause of morning headaches. (true)
4. T or F Oral pathogens are associated with vascular atherosclerosis. (true)
5. T or F It is overkill to use systemic antibiotics for elevated oral pathogen levels. (false)

About the Speaker

Witt grew up in St. Petersburg, Florida, where he spent many hours on the golf course. He played with the golf team at the University of Florida. After completing dental school at UF in 1982, he joined the prestigious practice of Dr. Peter Dawson. Over the past 30+ years, Witt has taught classes at the Dawson Academy, where over 40,000 dentists have studied Occlusion, Restorative Dentistry and TMD. The past 10 years Witt's focus has been directed toward elevating Dentistry as a true specialty field of medicine and complete health, coining the term: "Integrative Dental Medicine" (IDM). He recently founded the IDM Scholar Society (idmscholarsociety.com) and authored *The Shift, the Dramatic Movement Toward Health Centered Dentistry*.

Witt and his wife Patricia have been married 43 years, have 3 children and 3 grandchildren. The family enjoys attending UF Gator football games and travel together.

“Practice Management from A to Z – Find the Hidden Potential in Your Team and Practice”
– 6 CE Credits

Tanya Brown, DMD

(Dental Hygienists, Dental Assistants & Administrative Personnel of registered dentists for this course are invited to attend if space permits. See tuition charge on registration form.)

Course Description

Are You Managing Your Practice or it is Managing You? Are there days when you and your team feel like you are working harder than ever and not seeing the results you hoped for? In Today’s world “got us here will NOT get us there.” The good news is that with a few adjustments, you, your team, and your practice will see dramatic results. Learn the secrets of what the most successful practices are doing to reach their goals! You will learn how to support your entire team to “Talk the Talk & Walk the Walk” on Monday so everyone will be on the same page!

Course Objectives:

- Advantages & disadvantages of the different generations of bonding.
- Learn How to Communicate Effectively with ALL people.
- Create SYSTEMS that Create Accountability for Admin and Clinical Team.
- Find the BEST Solutions to Prevent Broken Appointments.
- Discover HOW to Create Your “Ideal Hygiene Department!”
- Uncover HOW much PPO plans re Actually “Costing You”
- Discuss the “MUST-HAVE” Practice Management Reports.
- Learn Your Ideal Overhead And How to Achieve it.

About the Speaker

Dr. Tanya Brown is Dentistry’s expert on Case Acceptance. She understands how each team member is a vital contributor to the success of the practice. For over 25 years she has worked in every area of a dental practice from chair-side dental assistant, to practice administrator, to owner dentist and founder of The Center for Cosmetic & Restorative Dentistry.

Dr. Brown is one of a select group of dentists who have completed the core curriculum at the Dawson Academy of Advanced Dentistry. She is a self-proclaimed CE Junkie & has earned her Mastership in the Academy of General Dentistry. Dr. Brown is an active member in the American Academy of Cosmetic Dentistry, the Academy of General Dentistry, and the American Dental Association. In addition, she is also a member of the Academy of Professional Speakers and the Speaking Consulting Network.

Dr. Brown will help you elevate YOUR practice by making dentistry Practical, Profitable, and Fun!

“Prosthodontic ‘Pearls’ for Enhanced Efficiency in Implant Dentistry” and “Enhanced Aesthetics with Crowns and Veneers”
– 6 CE Credits

Jay Smith, DDS

(Dental Hygienists, Dental Assistants & Administrative Personnel of registered dentists for this course are invited to attend if space permits. See tuition charge on registration form.)

First Course Description – Prosthodontic ‘Pearls’ for Enhanced Efficiency in Implant Dentistry

Dental implants and esthetic dentistry have evolved into integral elements of contemporary dental practice. We must develop the ability to evaluate cosmetic deficiencies and design procedures for smile enhancement. Implant soft tissue development into an anatomical form is critical to mimic natural teeth. Dr. Smith will describe step by step sequencing for single teeth implants as well as the implant challenges with adjacent missing teeth in the esthetic zone. The advantages of digital dentistry will be presented, with implants and natural teeth. This presentation will highlight “Pearls” from the single missing tooth to the fully edentulous reconstruction. Collaboration with other dental team members will be discussed through multiple case presentation.

Learning Objectives:

1. Soft tissue development with provisional restorations.
2. Understanding the differences between single and adjacent implants.
3. How to create then decide when to make an INOL immediate provisional.
4. “Pearls” for efficiency, material selection and profitability.
5. Simple concepts for patient marketing and case presentation.
6. The advantages of IOL (Immediate Occlusal Loading), when and where?
7. Success through team collaboration.

Second Course Description – Enhanced Aesthetics with Crowns and Veneers

Many patients visit our practices solely for esthetic enhancements. Cosmetic dentistry has evolved into an integral element of contemporary dental practice. We must develop the ability to evaluate existing cosmetic deficiencies and recognize

patient expectations to design proper procedure for smile improvement. Dr. Smith will discuss the factors that make up smile design and decision making for the best treatment options for the patient. Current preparation techniques for crowns and veneers will be presented as well as material options regarding esthetics and function. This presentation will outline restorative techniques from diagnosis to completion. Provisional techniques, longevity, and cementation recommendations for various materials will be discussed.

Learning Objectives

1. Evaluate patient's desires regarding smile enhancement.
2. Deciding between a crown or a veneer.
3. Preparation techniques.
4. Deciding which material is best for each patient.
5. Cementation protocols.
6. Maintaining the restorations.

About the Speaker

Dr. Smith earned his Bachelor of Science degree in biology at Furman University in Greenville, South Carolina and received his dental degree and completed his residency in fixed and removable prosthodontics at Emory University in Atlanta, Georgia. He was awarded the Hinman Scholar Award for Scholastic Achievement and appointed to the Emory University School of Medicine advisory committee for continuing education. Dr. Smith is a member of the Academy of Osseointegration, the American Dental Association and the Georgia Dental Association. He maintains a private practice, limited to prosthodontics, in Atlanta, Georgia.
