**“Clinical Techniques, Processes and Biologic  
Considerations for Simple to Complex Restorative  
Cases.” – 6 CE Hours**

*Michael C. Fling, DDS*

*(Dental Hygienists, Dental Assistants & Administrative Personnel of registered dentists for this course are invited to attend if space permits. See tuition charge on registration form.)*

### **Course Description**

This presentation covers a multitude of relevant considerations beginning with proper diagnosis and treatment planning utilizing Global Diagnosis. Then you will learn a restorative sequence which is especially relevant to complex cases. You will learn the foundation for aesthetic determinants along with using alterations to vertical dimension when appropriate. Techniques for provisionalization along with injectable composite bonding for a more conversative approach will be discussed along with intermediate restorations. Lastly, a simple technique in preparation design will be discussed along with simple techniques for chairside alterations of final crowns contours and color.

### **Learning Objectives:**

1. How to utilize Global Diagnosis in treatment planning.
2. The Global Restorative Sequence.
3. Position and contours for optimum aesthetics.
4. How, why, and when to change VDO.
5. Shell overlay technique for provisional fabrication.
6. Vertical Stop technique for provisional fabrication.
7. Composite bonding for intermediate restorations.
8. Injectable composite techniques.
9. Simple preparation technique that easily verifies adequate occlusal reduction.
10. Utilization of MYIO chairside for restoration alterations.

## About the Speaker

Dr. Michael Fling is a dentist, an educator, an author, and an artist. He says that the secret to his success is “bridging the gap between knowing and doing”. He uses this secret to further the success of those around him by inspiring them to excellence.

He began his career in dentistry in 1976 as a laboratory technician. While maintaining a private practice with an emphasis on aesthetic and restorative dentistry, he has served as Course Director and as a Clinical Assistant Professor in the Department of Fixed Prosthodontics at the O.U. College of Dentistry. He now serves as an Associate Professor and the Director in the Department of Advanced Restorative Dentistry. He is the founder and President of Fling Seminars, delivering stimulating advanced dental education and motivation to dental teams and technicians around the world. He has been named by *Dentistry Today* as one of the “Top Clinicians in Continuing Education” every year since 2005. He serves at the L.D. Pankey Institute as an Essentials Director and is part of a select handful that has completed the process to earn the distinction as a “Pankey Scholar”. He also serves as a member of their Board of Advisors. He is a member of the American Academy of Restorative Dentistry. His passion is motivating change to improve the quality of life for those he touches.
